Call for Price extension
User Manual

Magento 2 Call for Price extension helps hiding product price and "Add to Cart" and replace it with "Call for Price" button to encourage visitors to contact you for quote.

Table of Content

1. **Extension Installation Guide**
- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magneto site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
  o php bin/magento setup:upgrade
  o php bin/magento setup:static-content:deploy
  o php bin/magento indexer:reindex
  o php bin/magento cache:flush
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding Magento Extension Installation, Feel free to contact us any time.

2. **Configuration**
Once you have successfully installed the extension, go to **Stores → Configuration** to configure the extension for use. Here you can find setting to enable or disable the extension.
